10<sup>th</sup> YEARS ANNIVERSARY

AGRICULTURE • INNOVATION • LIFE

UPM UNIVERSITI PUTRA MALAYSIA  
MINISTRY OF EDUCATION MALAYSIA  
i-PUTRA Putra International Centre

This year marks an important milestone for the Asian International Mobility for Students (AIMS) Programme. Since 2009, the student mobility scheme, which began as the Malaysia-Indonesia-Thailand (M-I-T) Pilot Programme, has successfully mobilised more than 4,154 students among 8 member countries (Brunei Darussalam, Indonesia, Japan, Republic of Korea, Malaysia, Philippines, Thailand and Vietnam) and 69 participating higher education institutions in a span of 10 years.

In celebration of this milestone, the 10<sup>th</sup> anniversary of the Programme will be held adjunct to the 13<sup>th</sup> Review Meeting of the AIMS Programme on 11-13 November 2019 in Bangkok, Thailand. SEAMEO RIHED and the host of 13<sup>th</sup> Annual Review Meeting of the AIMS Programme, the Office of the Higher Education Commission (OHEC), Thailand, have delightfully prepared several activities to which stakeholders of the Programme, including the students, are invited to participate. Students, university staff and governments alike can participate in taking advantage of policy platforms and expressing their creativity in reinvigorating the image of the AIMS Programme in the following activities, namely:

- A. 10th Anniversary of the AIMS Programme Video Clip Compilation
- B. AIMS Logo Design Contest
- C. AIMS Students Speech Contest
- D. AIMS Student Forum

Each of the activities are expected to benefit the participants and the AIMS Programme at large, especially in terms of enhancing its visibility and information accessibility.

Further information about the aforementioned activities are detailed in the following pages. Also, for more information about SEAMEO RIHED and the AIMS Programme, feel free to visit the following websites:
